

Follow-Up Conversation with Anita — July 19, 2024

Summary / Relevance:

This transcript documents HR's follow-up after my complaint that Greg Carfagna had rejected or delayed my performance termination recommendations based on an alleged missing documentation/coaching issue. Anita explained that after speaking with Greg, Allan, and Nancy, she determined that I had completed the process correctly by linking the prior disciplinary actions instead of attaching them separately. Anita stated that I "did exactly the right thing," that the issue was that Greg/approvers did not know how to access the linked documentation, and that no changes were needed other than resubmitting after confirming the links worked. This is relevant because it shows my work was questioned or delayed under a misunderstanding, despite HR later confirming my process was correct. I also explained that the employees involved were very low-performing employees who had been assigned to my team, and because of the delay, I was forced to keep them for an additional month, which lowered my team numbers and negatively affected my scorecard.

HR Anita:

The reason I reached out to Alan is because I reached out to Greg again after we talked and I said, okay, I just found out what, um Shauna did, which is actually right. You just didn't know it, and I'll explain. And then I can explain it to you. I can explain it to Alan. Alan can explain it to you, or I can sit in on the next DM meeting and walk everybody through it, whatever you want. And he goes, just tell Alan, and then Alan can tell us and I' about to settle.. And then Alan was just like, sorry, I talked to Alan, he's like, I'm so relieved. And it all makes sense now. So I tellingya, I'm sitting here toing, ching, I like these albums. So let me explain where Greg was coming from, which I think we got on the same page in terms of the word choice. He's using the word coaching, which is not exactly what he meant. He gets the coaching in terms of, you know, like a code of conduct. We sat down with him. Did you why did you do this? Well, you're supposed to do that, blah, blah, blah, blah, blah. But the coaching He-MAT was more supporting documentation that shows the progressive steps that were taken. So when he can you, oh, I

haven't sorry, it's screen. You guys all together. Where you go. There you are. Okay, so can you see my screen?

Me:

Yep, I can see it.

HR Anita:

Okay. So when he sees it, and what am I on? I'm on the final. I don't on the final. I'm start with the ring. Mm. Oh, it's Oh, okay, I thought it was said. Okay. Okay, we're at the R return, okay?

Me:

Okay.

HR Anita:

Follow me?

Me:

Yep. Mm hmm.

HR Anita:

Okay. So when he opens exactly right for term, this is exactly what he sees. Oh, okay, this is for Dan, and it's for utilization, and they didn't meet in June. But what about the other month? He's like, I check everything because I want to make sure we're doing right by the employee. I go, okay, I get it. And so then he sees the only thing attached is this, which only shows the June result. So he's looking at it, what about everything else? And I told him, I said, well, let me, um, he goes, so I'm not asking for, he just wants the supporting docs that shows it. So then I find out, I get a hold of Nancy, blah, blah, blah. And because I knew there's two ways to put that information in. It's linking the rec for term to the final and then linking the final to the formal, which is exactly what you did. So I'm telling them, she did exactly the right thing. The other method is attachments. And I said, but the quicker, and the funny thing is, is Alan goes, yeah, Shauna's a bit more advanced when it comes to that kind of stuff. Because what they normally see is the team leaders are attaching the final or the formal as opposed to linking it. And I go, well, if I was a team leader, I would link it because I think that's faster.

Me:

Right. Yeah, that's how I learned to do it from the other TOs.

HR Anita:

Yeah, and I don't even know how to do it, but I said, my understanding is the linking is faster, number one, than doing it as in the chapachment. And then the other piece to that is, here's the catch 22, is by linking it, it's a few more steps for the approvers, and I'll explain that one. So this is where we're at. So this is what I showed Alan. Alan's now going to, when I told Greg that, you know, I have to show you what this means, because Shauna did the right thing, um, which he figured you probably get, but what he wants to see is see it, and he couldn't see it.. Because he didn't know that this is how you do it.

Me:

Especially when, like, these terms were not mine and these are terrible employees that are dragging down my entire team and my stats and everything..

HR Anita:

Well, he said, he'd go, if I do this all the time, I send them back all the time. So Shamas aren't the first. And I said, okay. And I said, well, that's good to know. But then I found out you actually do provide what he wants to see. It's just in a different way. It's not in an attachment. So what they need so this is what I just trained Alan on and he's going to show the DMs and Greg at their next huddle. So hopefully he can remember, because it's kind of, to me, it's more clicks than if it was an attachment.. Right? If it's an attachment, all you do is you go down, you click on it, and it pulls it up, being in the story. But he wants to see, well, where's the formal? Where's the final, whatever? So, and this is so stupid, but the way work day works, and it is what it is. So basically, this is what happens. So the final written warning goes to Alan. Alan then has to hover down where it says related at disciplinary actions and he has, come down and where he gets the finger, the fingers the bad word. gets the hand, the pointer, right? And then he clicks on the endness and then you get the link to the final, you can't stop there. There's several links. And then it just takes you to the process, you know, and here's where Courtney started it on May 14th, and then she submitted it on May 14th. Then it went to the Ryan, who was one up from there, and then he approved it on May 15th, and then it went to Nancy on May 15th, and then Nancy sent sent it back for these reasons. Yeah, I need you to be quiet immediately. I'm just telling you this just for quickie. And then Ryan approved it again and then came to ER. Nancy sent it back for for these reasons. And so it goes back to Courtney, Courtney resubmits it, goes to Ryan, Ryan approves it again. Then Nancy finally approves it, and then Courtney administers it, sends it to the employee, for their acknowledgment. You can skip all this because this is just for ER to go in and make sure we put in the time frame, right?

Me:

Right.

HR Anita:

Just don't worry about that piece. And then at the very bottom, because we're in the final written warning, it shows that down a little bit, that Dan, the employee, acknowledged it on May 31st. Okay. So you're thinking, well, that still isn't giving what Greg Carfagne wants. And so then the next thing they have, they have to click on this. That's what I'm saying. It's a little bit more clicking and knowing how to do it for the approvers. So now you're Greg and Greg, okay, I see there's a final, but what does the final tell me? So now you click on here. doesn't matter which one, but I just say just use the last one. And then you have to click on view details, and now it brings up the final written warning, and then Greg can scroll down and say, okay, here's the final that was for.. Where is that? So this is weird. How come they're on out the first. So there might be an issue with this one. You may have clicked on the wrong. Let's see. Because the rec for term was for outbound.

Me:

No, it was for utilization, and this one's saying it's for album. So the record for term, because it's if you don't meet in the three. it's anything.

HR Anita:

Okay. Right. Mm. Okay. Okay, so hopefully Greg remembers that because I don't like that. I hate that. Honestly, I do not like that, but that's that's Carr's decision. Okay. So you're right. So you're still in the in the null. Okay, so Greg scrolls down and he says, oh, okay, they didn't meet in March and April. Okay, okay, got that. But now we got a look at, well, did they do the formal? So you have to do the same thing now. Now you're in the final. So you find the pointer under related disciplinary action, and then you click on the formal and then he clicks on this again. I mean, there's just so many clicks. And the same thing, you go through all of this, you can click on any one of these, but I just click on the last one just to be sure. You see Dan acknowledged it back then, so he noticed that it was administered to Dwan, and then you look at the view, the details, and then Greg can scroll down and see, oh, yep, there's the three months that they didn't meet and outbound, which then led to this formal and he's good to. Okay. It's a lot of work for them, that's just so silly to me. But yet it's more work for you guys if you attach it, in my opinion.

Me:

Yeah, no, it's definitely a lot.

HR Anita:

And so he made a good compliment about you in terms of, yeah, she's a little bit more advanced and it does make more sense to link it versus attach it. Anyway, so if you just want to review the two, because right now. me go to.. easiest way to do it here. So you can just go back into Dean and then whoever the other one is, make sure that all that's there based off of you linking it. And then go ahead and send it back through you again. Okay. Just send it back. So, yeah, so it'll go to Allen, then it'll go to.

Me:

Okay, so no changes. I don't have to make any changes to it.

HR Anita:

As long as. So we already went through Dan, so we already know Dan's is already there. I did check the other one, so you want to check the other other one just to make sure that all the links are working, Yep, then you're good to go.

Me:

Alrighty. Perfect. That's so. Such good news.

HR Anita:

s's, yeah, Greg's like. So Greg doesn't know how to do this yet, but Alan does.

Me:

Oh, okay.

HR Anita:

And hopefully Alan remembers because I don't think it's that easy. I mean, it's easy. It's just so many clicks to get there. It's just like, one, two, three, four. I mean, it's like six clicks to look at both the formal in the final. But that's going to be his, yeah, Greg was like messaging him and and he goes, yeah, just show Alan and Alan can show us. And I offered to show him myself either him or all of the DMs, but he's going to have Alan do it. But Alan was very complimentary of you. And then Greg said, and I said that you were comfortable going to him, but because you were new to Alan, he didn't want to, you know, step over him or whatever, just trying to be more professional that way. And he goes, okay, he goes, but she's welcome. I have an open door policy. I try to get back to everybody when I'm, you know, in office quickly. So he's all for, if you ever want to go to him directly.

Me:

Okay, cool.

HR Anita:

But I mean, I would suggest, yeah, especially, I don't know if you hadn't have gotten me involved if we could have cleared it up because it was just the word choices here. used, right?

Me:

Right, yeah. I mean, it was just like.

HR Anita:

And it made it sound to like you, if it made that sound to Alan, because Alan's like, oh my gosh, you just took all this weight off of me because he was so stressed about it. Like, I don't think he got it either. And he couldn't, it didn't register for him. And now it does. Yeah. So I think we're all the same age. Everybody knows. I go, yeah, and you just did it the link way, which is the easiest way for a team leader. Good, I' quickest way for an approval, a quickest way for an appro approval is the attachment way because you just have one click, not click, click. And I didn't even know that the little pointer finger did that. I had no idea, so I knew something, so that's kind of fun.

Me:

Nancy showed you that?

HR Anita:

Yeah, I go, Nancy, can you help me understand something? So I just got her on the phone and I said, I said, I know that you had worked with Shauna and we don't require coaching in the true sense of the word coaching versus he wants the supporting documentation that shows, and in a sense, the coaching is there when you actually administer a corrected action. because you sit down with them and you tell them what month you have, whatever. Right. So in one sense, it really is coaching. But anyway, yeah, that's definitely before we landed. Great. Oh, my gosh. I'm so glad. I can. So, yep, just get the the other one has the same stuff attached through your links. And then if so, yips, send them through again. And then you could probably message Alan and say, hey, I just sent it through. You got it. Cool. I don't and yeah, because it's going to go through

the same process. It's going to go to Alan. Now it's going to go to Nancy, then it's going to go to Greg. So you kind of got to be on top of people to get him to approve it if you want to take care of it sooner than later.

Me:

Yeah.

HR Anita:

Since we're already a couple of days out from when you initially did it.

Me:

Yeah, I'm definitely going to review it right now and submit it immediately and then message Alan.

HR Anita:

So all it was was just a word choice and then not everybody having the understanding of the linking part. Cool. So.. All good. All very, very good.

Me:

Awesome. All right. Thank you so much. Have a great weekend.

HR Anita:

All right. Thanks. You too. See you later.

Me:

See you. Bye.
